

EKO SFERA

EkoSfera

*From Waste to a Green
Future*

Contributing Uzbekistan's Sustainable Development

A Dedicated Team for a Sustainable Vision

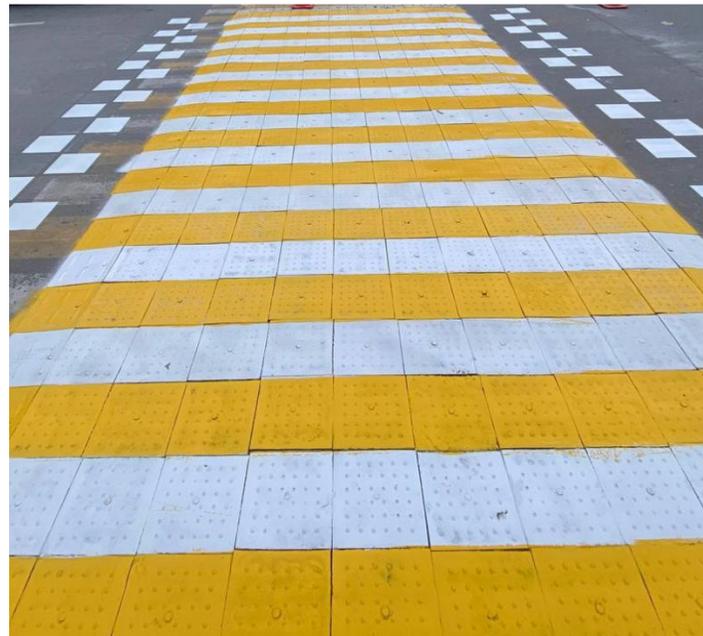

- ▶ EkoSfera was founded on **June 5, 2021** and is led by **Director, Bunyod Saribayev**.
- ▶ Our team of **545** dedicated employees is based in **Jizzakh region of Uzbekistan**.
- ▶ We provide comprehensive **waste management services**, from **collection and transportation to recycling and product manufacturing across nine districts** in the region.

Innovation in Action: Products from Recycled Materials

Benches & Street Furniture

Durable, eco-friendly benches for parks and public spaces.

Artificial Crosswalks

A new, long-lasting solution for road safety.

Speed Bumps

Recycled plastic solutions for vehicle speed control.

Our Technology: From Waste to Product

1. COLLECTION & SORTING

Used plastics are gathered and separated by type.

Image is for illustration purposes only

2. WASHING & DRYING

The plastic is thoroughly cleaned to remove contaminants.

Image is for illustration purposes only

3. SHREDDING & PELLETIZING

Cleaned plastic is granulated into small pellets.

Image is for illustration purposes only

4. MOLDING

Pellets are heated and injected into molds to form products.

5. COOLING & FINISHING

Products are cooled and finished with any necessary touches.

6. QUALITY CONTROL

Each product is inspected to ensure it meets our quality standards.

Partnership proposal

- ▶ We are aiming to launch a new project to use innovative, **100%** recycled plastic road plates. This technology with a **20-30 year service life**, directly contributes to sustainability.
- ▶ To ensure the highest quality and production efficiency for this project, we plan to modernize our facilities with new automated hydraulic presses made in Japan
- ▶ This initiative aligns with our ultimate goal to reduce waste by **50%** by **2030**, expanding our use of sustainable energy and moving closer to a zero-waste future.

We are actively seeking a strategic partnership and investment to support those projects implementation
